speechcontrolteam
SpeechControl
SpeechControl is a project led by the SpeechControl team; independent of the SII.
wintermute-devs
wintermute-psych
Wintermute
Wintermute is a project led by both the Wintermute Development and the Wintermute Psychology teams.
Even though SpeechControl is centered around speech synthesis and voice recognition enhancement and growth, its work contributes heavily to better human interactions with machines, one of the many things AI requires.
SII
The SII is a organization designed to assist the growth of GNU GPL AI projects.
